

MOUNT ROYAL AIR PARK PROPERTY OWNER'S ASSOCIATION

SURVEY TO GAGE INTEREST

(Please return in self addressed proxy envelope)

EAST DOCK

The east dock is deteriorating & is not being used in its current configuration. In the near future, this dock will need to be repaired or removed at our expense. We invite feedback from all owner/residents regarding the idea of reconfiguring the docks to include covered boat slips (with hoists) that can be leased from the association.

It would help to know how many members would be interested in leasing new boat slips if available in the future.

_____ Yes, interested. _____ No, not interested.

PAVILLION

A pavilion for community use has been discussed. The location for such a pavilion would be the newly acquired recreation lot on Airport Drive (old Wilcox cabin). Some uses would include:

- Community or private family functions (reunions, etc.)
- Business meetings (board and committee meetings, etc.)
- Club meetings, Movie nights, parties, etc.
- Fly-In headquarters
- Exercise/fitness club

Preliminary discussions regarding funding are via private donations (\$14,000 pledged to date), fundraisers, existing dues, etc. No special assessments are being considered.

_____ Yes, interested _____ No, not interested

If interested in participating in either of these projects, please provide

your email address: _____
